AT PROVIDENCE, R.I., APRIL 30, 1893.

"Monte Scett, mounted on a Rambler and the only scratch man in the race, with his record of I hour I9 minutes 8 seconds, won the time m.dai and also made the best 25-mile time ever attained in Rhode Island. Furthermore, in accordance with the figures of the track measurer, George Munroe, the distance he covered in that time was 26 instead of 25 miles. The number of laps required over the course was five. If these figures are correct Scott may lay claim to a world record. The 25-mile world record, as established by Hoyland Smith at the Milburn-Irvington race last May, was I hour 17 minutes 11 seconds, or only 1 minute 57 seconds better than the time in which Scott covered a distance supposed to be greater by one mile, "-Providence (R. This letter called forth the following resolution from District of Columbia Assembly, No. 66, K. of L.:

"Whereas Myron M. Parker, a Commis of the District of Columbia, has, in an open letter to Hon. Carroll D. Wright, commissi of labor, depreciated the enforcement of the act of Congress relating to the investigation of the slums of this city; and

"Whereas on account of his official position as a District Commissioner we fear that his letter may have the effect of suppressing this very useful and necessary investigation: Therefore, "Resolved, That we enter our solemn protes

against his action as a Commissioner and de-mand the rigid enforcement of the law." Today Mr. Parker received a letter from Su-perintendent Wright, in which the latter stated the object of the investigation, the underlying motive being to ascertain the relative in-fluence of immigration on the slum area. Commissioner Parker in reply thereto today says: "I am pleased to own receipt of your esteemed favor of the 10th instant, inclosing a copy of the act of Congress under which you are making a cursory suring Washington, and in reply would say that the Commissioners will interpose no obstacle in the course of this work. On the contrary, they may be necessary. My previous letter was for the purpose of discovering the object of this investigation. Every one is proud of Washington, and we are confident that your investigation will only emphasize our claim that Washington is the ideal city of the world."

THE STONECUTTERS' STRIKE. No Change in the Situation-What a Mem

ber of the Union Says. There is no special change in the situation as to the stonecutters' strike. It is said on the part of the bosses that new men will be obtained and some are already here. The mem- fair today was the sight of two electric founbers of the union are of the opinion that the tains on each side of the Macmonnies fountain, bosses will not find it so easy to get in front of administration building, emitting new men as they seem to think. As one of them said this morning to a STAR reporter: "A stonecutter is a rich man's luxury for the reason that cut stone is a luxury. Stonecutters are only found in great centers where this kind of work is done, and their numbers are not large. Even Vanderbilt, with all his wealth, was not able to get men to take the places of the stonecutters at work on his house in Asheville, N.C. They are not to be picked up anywhere.

"Now, in regard to the present difficulty. As has been stated, it has been brewing for two years past. There is an agreement in existence between the bosses, the stonecutters and the

are trying to live up to this agreement. In the first place, we had an agreement with the bosses which was one of mutual benefit. Their business was injured by having stone cut away from this city, so we told them that as stonecutters we would not handle such stone. On the other hand, they agreed to employ stonecutters to set the stone which the latter cut. Then the question in regard to the stone masons arose and we agreed that the stone masons should be allowed to set all stone except such as was laid in parallel lines, called by some ashlar. The broken range stone was to be set by the masons, and we further agreed that in cases where no cutters could be obtained we were cutters could be obtained we were were aware of this agreement. Affairs went along for some time, but gradually stone masons began to encroach upon the terms of the agreement, so that it has been repeatedly violated. We thought that it was time to take a stand and this we have done, and we expect to win, because we think we are right. TALK WITH A MASTER STONEGUTTER.

Having shut out the office seekers, it appears that the Senators and Representatives do not come to the White House in such numbers as before. This is probably due to the fact that now they have not so much occasion to come, as their visits formerly were made more to please their constituents who wanted to be presented to the President and not because they themselves had such pressing for the assembling of the cabinet this morning.
